

CV Assignment 3 | S. Vinu Sankar | 16110143

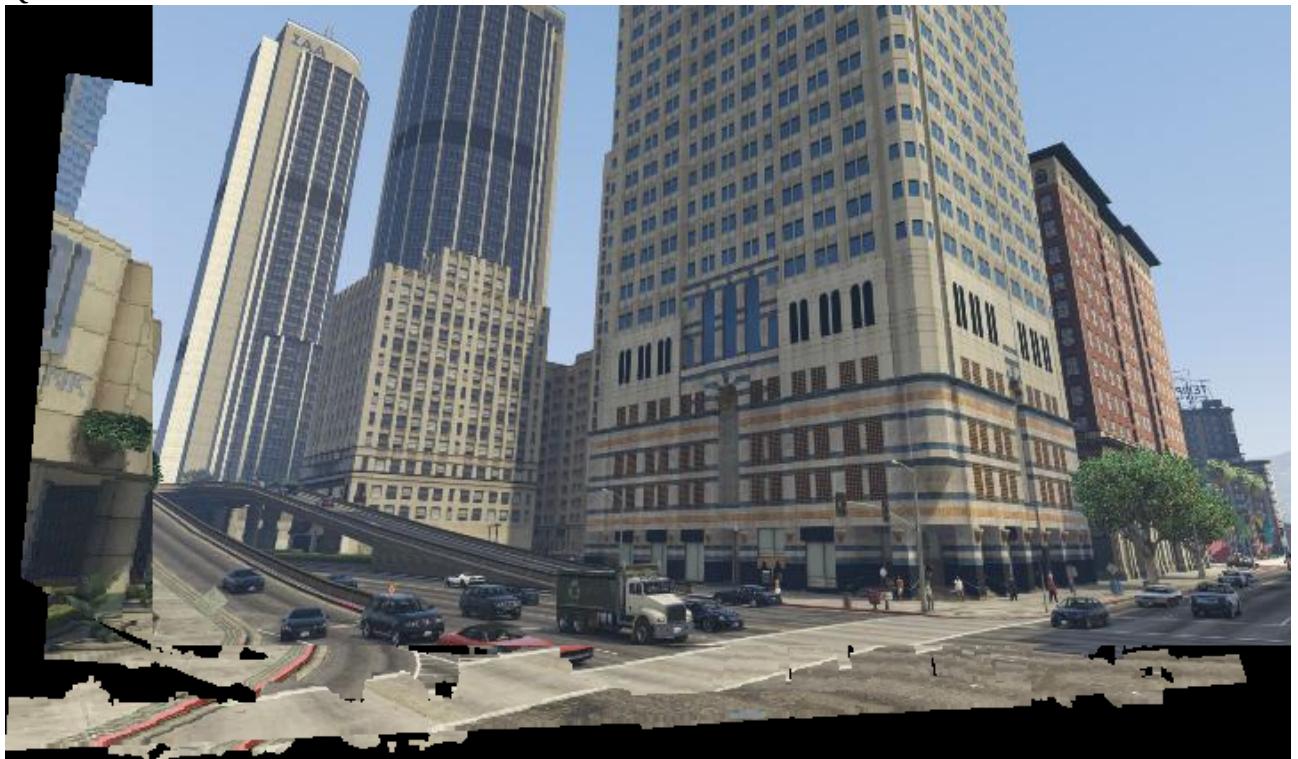

Q1.

Row 1 is stitching of 4 images and row 2 is that of 3 images.
Left side images are by inbuilt functions and right are hard coded.
More examples.

Q2.

1st image is with depth content homography, and 2nd image is with singlw homography.
Depth information gives better homography matrices for better warping. Buildings are warped very well, on top.
